

## Self-Fusing Stress Control Tape

### Product Introduction:

A self-fusing tape, for stress control applications in joints and terminations up to 36kV.

### Size:

19mm x 0.76mm x 4.5m

### Features:

- Temperature rating: 90°C continuous operating
- Changes Voltage Distribution in the Electrical Field Surrounding a High Voltage Termination or Joint.
- Reduces stress concentration to values found in continuous cables

### Applications:

- Provide stress relief for all cable terminations and joints.

Part Number	TEPRSC22
